MARKET VALUE

Vehicle market value £14,850.00

DEDUCTIONS

Policy excess -£250.00

PAYABLE TO JOE BLOGGS

£14,600.00

What happens next. Accepting this settlement confirms you're happy with the figures above. Once accepted, payment is sent to your registered account and typically arrives within three to five working days.

How the market value was set. We looked at this Golf's age, trim, engine, transmission, condition and mileage to arrive at a fair market value. Where an exact mileage reading wasn't available, a pro-rata figure was calculated from the last MOT and your policy's annual mileage. Market value is quoted net of VAT where you're VAT registered.

About the excess. The excess shown above is the amount your policy requires you to contribute, and it has already been deducted from the figure you're being paid.
